SUMMARY

Results-driven Senior Analyst with 10+ years' experience in Business Intelligence (BI), Data Analysis, Data Warehousing and Visualization (Power BI, SQL, Python, Excel). Proven ability to translate complex data into actionable insights, manage stakeholders, lead UAT and deliver BI solutions driving strategic decisions and significant savings (e.g., $21K/year, $16.2M inventory reduction) in enterprise environments using Agile/Scrum. Seeking a Senior Analyst role to leverage analytical skills and BI expertise to optimize business performance.

SKILLS

- **Data Analysis & Visualization**: Power BI (Advanced DAX, Power Query, Dataflows, Datamarts), Tableau, Excel (Advanced), Business Intelligence (BI), Data Mining, Statistical Analysis, Reporting, Dashboard Development, Google Analytics
- **Data Management & Engineering**: SQL, Data Warehousing, Data Modeling, ETL Processes, Data Cleaning & Integration, Snowflake, Hadoop
- **Programming & Tools**: Python (Pandas, Matplotlib, Seaborn, APIs), SQL, Power Automate, Visual Studio
- **Project Management & Collaboration**: Agile/Scrum Methodologies, Jira, Azure DevOps, Stakeholder Management, User Acceptance Testing (UAT), Requirements Gathering, Process Improvement, Certified Scrum Planner , Critical thinker.

EXPERIENCE

Eaton Corporation (a S&P 500 organization) **Aug 2015- till present**

Senior Analyst (Burlington, Canada) Aug 2023- till present

- Acted as a liaison between Product Managers and IT teams to provide IT infrastructure support for the Bidmanager application including configuration, testing and product launches, while also creating and delivering training programs to over 120 stakeholders to drive user adoption and address functional queries.
- Successfully developed and implemented a comprehensive Power BI dashboard from the ground up, leveraging advanced DAX queries and integrating data from Jira, Azure DevOps and Visual Studio. This initiative provided real-time analytics to support business in their decision-making process, resulting in **cost saving of $21K/ year**.
- Experienced in requirement analysis, quality documentation and User Acceptance Testing (UAT), ensuring application quality and functionality by documenting test cases, managing testing processes and collaborating with cross-functional teams to deliver effective solutions.
- Transformed raw data into actionable intelligence through sophisticated reporting and analytics
- Designed and deployed a Power Automate flow to streamline ticket management processes, enabling real-time status updates and significantly improving issue resolution efficiency across teams.
- Designed and developed a KPI dashboard that enabled teams to identify and take timely action on backlog issues, resulting in the **elimination of a $57M backlog** accumulated over the past five years.

Lead Business Analyst - Business Ops and Advanced Analytics (Pune, India) Dec 2022- Aug 2023

- Developed OBIEE (Oracle Business Intelligence Enterprise Edition) based Country Price Review (CPR) tool, identifying margin opportunities leading to **$4M sales increase**.
- Created Power BI Inventory Management dashboard, reducing excess inventory and **saving $16.2M**
- Led cross-functional teams developing advanced analytical solutions; aligned BI strategy with business operations objectives to enable data-driven decision-making.

Senior Business Analyst (Pune, India) Oct 2021- Nov 2022

- Designed Power BI Realized Price Index (RPI) tool assessing acquired business impact, contributing to **$23M price impact**.
- Developed Power BI Win-Loss Analysis dashboard, increasing **win rates by 20%** and reducing **loss reasons by 15%.**

Business Intelligence – Power BI Developer (Pune, India) Apr 2019- Sep 2021

- Developed end-to-end Power BI dashboards (DAX, Power Query, SQL) for key initiatives (e.g., CPR, Quote Log Analysis).
- Integrated and transformed data from multiple ERP and source systems (OBIEE, SAP, SAP-BW, Oracle, Vista, Encore, Bidman) by performing detailed data cleaning, consolidation and modeling to generate actionable business insights.
- Leveraged Power BI Dataflows, Datamarts, Dashboards, and Apps for efficient data management and analysis, collaborating closely with stakeholders to build scalable, insight-driven reporting solutions aligned with strategic objectives.

Senior Analyst – Data Intelligence and Reporting (Pune, India) Nov 2017- Mar 2019

- Managed Financial RPI reporting for ~29 EMEA countries, ensuring accurate insights.
- Collaborated with cross-functional teams to groups to analyze electrical division data, ensuring data integrity and performing cost coverage analysis. Identified key trends and anomalies to aid in strategic decision-making.

Analyst - Data Intelligence and Reporting (Pune, India) Aug 2015- Nov 2017

- Streamlined products/pricing structures within CPQ (Configure, Price, Quote) systems, improving process efficiency.

PROJECTS

Investment Performance Analysis using Yahoo Finance | *API integration, Python, Power BI*

- Designed and developed an automated Power BI dashboard using Python and the Yahoo Finance API to compare TQQQ vs QQQ performance over 10+ years, enabling investors to evaluate annual returns, volatility, and the impact of dollar-cost averaging (DCA) on investment outcomes.

Netflix Data Analysis | *Python* (Pandas, Seaborn, Matplotlib)*, TextBlob, NetworkX, Data Mining, EDA*

- Performed EDA and data mining on Netflix data, identifying content/genre trends. Applied sentiment/network analysis to inform content curation and marketing strategies.

AI-Powered LinkedIn Content Automation | *n8n, Google Gemini API, Stable Diffusion, Tavily API, Gmail API*

- End-to-end automation pipeline designed to generate professional LinkedIn posts with visuals, improving content consistency and significantly reducing manual effort.

Document Verification for Customer Due Diligence in Banking | *Web data, Data Mining, Power BI, Root cause Analysis*

- Analyzed document verification data, identifying failure patterns (image integrity, data consistency). Developed dashboards, performed RCA revealing 23% repeat rate, informing process improvements.

AI-Powered Resume Evaluation Automation | *AI agent, n8n.io, Google Gemini API, Gmail API, AI/ML*

- Developed automated n8n workflow integrating Gmail/Gemini APIs to extract/analyze/summarize resumes, reducing manual screening time by 80%. Engineered AI models for structured data extraction.

3D Interactive Portfolio Website | *JavaScript, React, Three.js, Tailwind CSS, HTML, CSS*

- Designed and deployed an interactive 3D portfolio leveraging modern front-end technologies to deliver an immersive user experience, effectively showcasing projects, technical skills, and professional achievements.

EDUCATION

University of Colorado Boulder | Boulder, CO
Master in Computer Science | May 2025 (GPA: 3.92/4.0)

Pune University | Pune, India
Master of Business Administration (MBA), Finance | Mar 2015
Bachelor of Engineering in Electronics & Telecommunication | Oct 2012

LEADERSHIP & AWARDS

- **Extra Miler Award**: Recognized for exceptional dedication in project delivery and stakeholder support.
- **Award Nomination**: Continuous Improvement Award and Marketing Excellence Award for driving impactful initiatives and fostering innovation.
- **WAVE (Woman Add Value at Eaton) Community Leader**: Support diversity and inclusion initiatives.
